REISS Communication solutions
Conversation at eye level.

We know how to create offices.

REISS

Exceptionally diverse.

Working creatively and sharing knowledge in dialog: With REISS communication solutions you create the best conditions for successful meetings and good conversations. From specialized meeting and seminar rooms to highly variable meeting zones and representative conferences - with REISS you can design individual communication rooms for every requirement.

REISS

All REISS communication solutions programs are GS-tested. They have been awarded the RAL-UZ 38 environmental label and meet the „Quality Office“ criteria.

REISS Novo

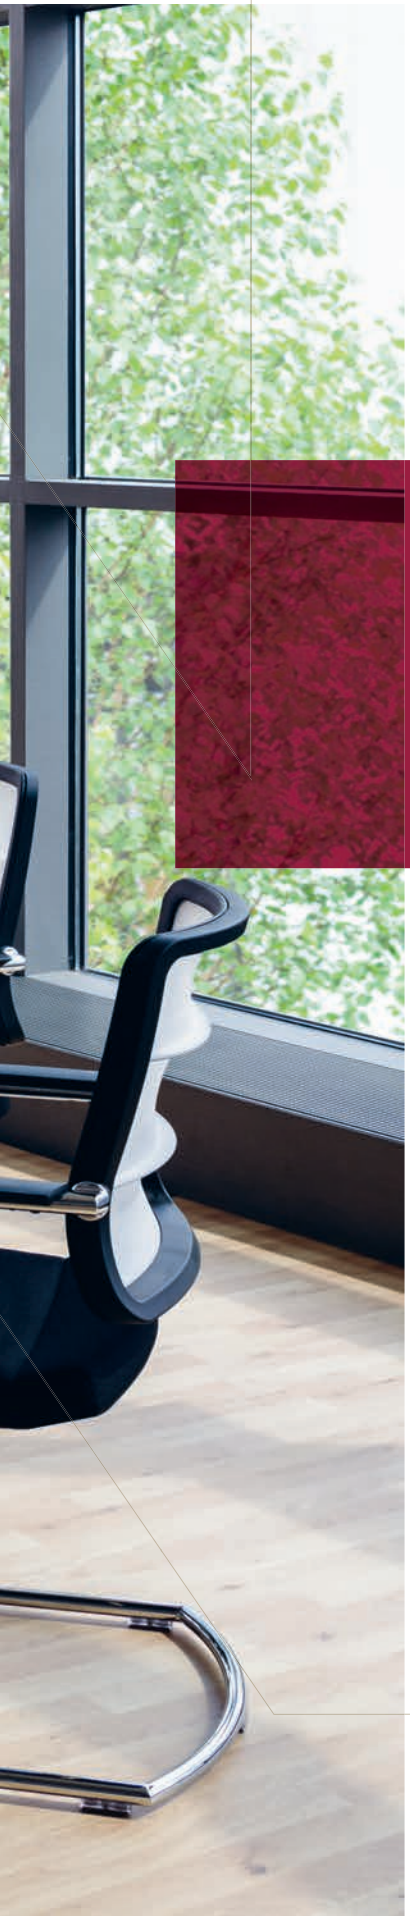
The flexible all-rounder.

The functional REISS Novo sets standards in the segment of sit-stand tables. With its height adjustable individual column, it is not only ergonomically advantageous, but also immensely flexible. Whether as a second table, for meetings at the work-place, as a communication base in the break room or a flexible all-rounder in the meeting room - almost any possible use is imaginable as a result of the diverse top and frame versions with and without castors.

HIGHLIGHTS AND OPTIONS

- Variable design
- Single table or desk extension
- Round or square table top with corresponding single column
- Mobile with 4-star base and 4 double castors
- Chromed column

REISS Novo



Of course, REISS Novo also offers outstanding performance on two columns.
So you have enough space for larger rounds of talks, whether you communicate sitting or standing. REISS Novo also cuts a fine figure as a two-column table and you remain flexible.

The clear line for constructive talks.

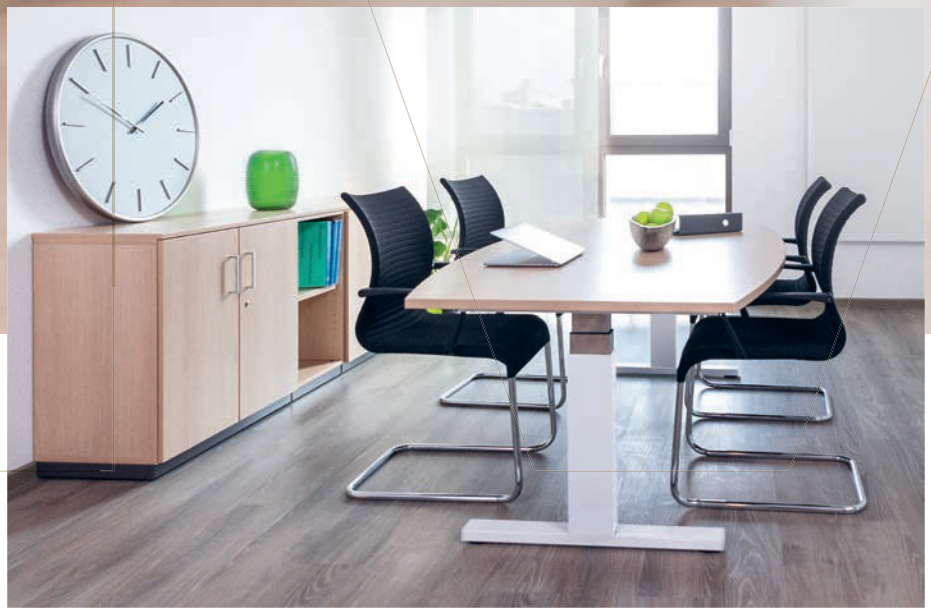
REISS Idealo combines clean lines with comfort and ergonomics. Whether large or small, every REISS Idealo conference solution captivates with a unique character and conveys lightness, no matter how heavy the subject of conversation. Thanks to the variety of configuration options and intelligent details, such as the „floating table top“ and the straight-lined frame solution, Idealo conference solutions create free space for open, constructive discussions and creativity.

REISS Avaro Q

The all-rounder for demanding situations.

REISS Avaro Q combines flexibility and ergonomics. All ergonomic requirements of modern workplaces are met with the variant-rich height adjustment and the consistently functional design.
REISS Avaro Q communication solutions are characterized by clear design and a wide range of equipment and combination options. This means that they fit perfectly into the overall design of the building. The ergonomic design of the tables, such as the comfortable legroom and individual height adjustment, ensures that concentration remains focused on the essentials: Communication while sitting or standing.

REISS Eco V



The center of good conversation.

Concentrated meetings in a seated position or brainstorming while standing - the barrel-shaped Eco V conference table has everything you need for productive discussions: plenty of space for good ideas and a stable smooth-running mechanism for smooth and virtually silent height adjustment, allowing it to adapt effortlessly to any situation.

HIGHLIGHTS AND OPTIONS

- Lift table with gas pressure spring
- Immediate, smooth and almost noiseless height adjustment
- Safety drop brake prevents „sagging“ of the table top
- Without motor: maintenance and annual inspection are not required
- Inner columns in chrome finish
- Max. load 15 kg, optional max. load 30 kg (Eco V Plus) for tables 800 mm deep
- Table tops with sliding top function

The timeless classic.

COMMUNICATION

REISS STANDARD is the right partner for everyday office communication. With this program, all communication questions can be answered in an uncomplicated way, without having to forego design diversity. The different table top shapes allow versatile use in companies or also in the furnishing of waiting areas in public spaces, such as in hospitals.

REISS Standard

Communication interfaces are becoming increasingly important in companies. REISS Standard offers a contemporary solution for this in a variety of forms. Here there is enough space for the exchange of thoughts and ideas in a large discussion group or in a spontaneous meeting.

The variable specialist for conferences.

With its modular design, REISS Inteo masters every configuration with flying colors. Always effective in terms of space and reduced in terms of the number of legs. This makes even longer discussions pleasant and comfortable.

Set for variation from head to toe. REISS Inteo is available for conversations in any shape. Thanks to special panel shapes that can be combined with each other, REISS Inteo offers the right communication solution for every room - whether with a closed surface, constructed in a ring shape for large rounds or with legroom screens, such as for use in training or seminar areas.

REISS Tabilo

REISS Tabilo is the answer to the requirements of the modern working world. Absolutely flexible and fully mobile, REISS Tabilo can be used easily and quickly for any communication scenario. Thanks to its smooth-running, brakeable castors and foldable panels in variable sizes, as well as tool-free linking for larger setups, you can respond to any situation completely spontaneously and concentrate fully on communication.

The mobile communication assistant.

REISS

With its folding mechanism, REISS Tabilo quickly fades into the background after use, saving space. By swiveling the table top, you simply line up the tables conveniently.

Cable routing

REISS communication solutions offer simple and effective cable management. Spacious cable ducts accommodate all necessary connections. Cables are safely routed even on large-format tables and are always easily accessible thanks to hinged cable ducts.

Quick and direct: the cable entry module provides spacious access to the horizontal cable duct; the brush insert allows the flap to be closed easily. Convenient and highly variable: REISS offers the foldable electrification modules in a wide range of equipment variants, e.g.: 2 x earthing contact plug, 2 x Ethernet

Spacious and easily accessible: The hinged cable channels provide convenient storage space for all necessary connections

Simple and effective: cable clamps enable orderly cable routing under the tabletop

Safe and flexible: The cable chain with flexible plastic links is break- and shock-proof and creates the perfect connection from the cable duct to the floor tank

Peripheral furniture

STAND-SIT-DESK

Height adjustable by quick lift adjustment from 720-1160 mm, desk top with shelf bar, inclinable, 1 shelf, 4-way base with 2 floor adjusters at the front, 2 double castors at the rear, with panel

STAND-SIT-EQUIPMENT TROLLEY

Height adjustable by quick lift adjustment from 720-1160 mm, desk top and 2 storage shelves, 4-way base with 4 double castors (2 are lockable)

STAND-SIT-TERMINAL TROLLEY

Height adjustable by quick lift from 720-1160 mm, desk top and 1 shelf, 4-way base with 4 double castors, 2 of which can be locked, CPU holder left or right, can be mounted at the front and ELT-Box-1, with panel

CATERING CONTAINER

Optimum operability due to internally adjustable drawer inserts and safe standing even with fully fully extended drawer

Electrification

Whether integrated media connection or universally mountable electrification module - fast and uncomplicated data access is guaranteed with REISS communication solutions. Always exactly where the call participants need it.

Electrification module, table top mountable,
3 x safety plug
